## **Welcome to the SJGA,**

We have created a junior academy for your kids to excel both on and off the course. We take golf serious, but emphasize fun. Golf is a life-time sport and learning at a young age can give your child an edge in life and/or a career. This 4-Day Camp is open to any junior golfer from ages 10-18, male or female.

**1**

### **SHORT GAME**

Tools to improve and keep a solid short game.

**2**

### **VIDEO SWING ANALYSIS**

Comprehensive Swing Data of each golf club.

**3**

### **INSTRUCTION**

Creating good swing habits and why we hit the shots we do.

## Things we learn

The 4-Day camp will dive into Putting, Driving, Irons, Short Game, and much more.

Every morning each student-golfer will begin with 15 minute warm-up exercises to get the body prepared. At the beginning of the camp we will review the rules of golf and why we follow them.

Each day we will focus on a different aspect of the golf game. Short-game, Putting, Chipping, and shots from 100-Yards and in. All golfers will spend time in the SkyTrak Golf Simulator to collect their data on their swings. The data comprises of each shot for each club, swing speed, how far off from center, how much spin each shot creates, and much more.

Going out to the driving range and hitting balls to warm up is one thing, but going to the range and practicing is another. Hitting golf balls vs. practicing shots will yield different results. We will discuss with the student-golfers how practicing the right way will improve their game and how to move on from bad shots and not letting it effect their routine.
